The Secret of Sugar :

The simple, irrefutable fact, is this: Sugar is a healthy part of a diet. Carbohydrates, including sugar, are the preferred sources of the body's fuel for brain power, muscle energy and every natural process that goes on in every functioning cell. Sugar is more than a "fun" food ingredient, it's an essential one as well.

Because it's all-natural, you can consume it with confidence. As Nature's preferred sweetener, sugar is present not only in nutrient-dense fruits and vegetables, but is also a key component, in foods as diverse as whole grain breads and cereals, yogurts and tomato sauces.

Alahramgroupworld.com

Producing countries of sugar:

The five largest producers of sugar in 2011 were Brazil, India, the European Union, China and Thailand. At present, Brazil is currently the largest, sugar producing nation in the world, Brazil exported 17.7 million tons of sugar to other nations, which comprises almost 40% of the sugar traded in the world that year. That, fluctuations of sugar production in Brazil alone can affect, world sugar prices substantially.

But what does ICUMSA 45 actually mean?

ICUMSA – is an acronym for the – International Commission for Uniform Methods of Sugar Analysis. It is a world-wide body which brings together the activities of the National Committees for Sugar Analysis in more than thirty member countries. ICUMSA is the only international organization concerned solely with analytical methods for the sugar industry. The ICUMSA ratings method allows a meaningful and accurate description of the product which can be easily understood by interested parties no matter where they come from.

White Cane Sugar Icumsa 45

ICUMSA (International Commission for Uniform Methods of Sugar Analysis) is a world-wide body which brings together the activities of the National Committees for Sugar Analysis in more than thirty member countries. Work is carried out under various Subjects each headed by a Referee.

ICUMSA is the only international organisation concerned solely with analytical methods for the sugar industry. In addition to use by that industry, ICUMSA methods are recognised by authorities such as the Codex Alimentarius Commission, the OIML, the EU, and the US Food Chemicals Codex.

Methods are recommended for Tentative (T) approval by ICUMSA in the first instance. Upon meeting all the Commission's requirements, methods are accorded Official (O) status. Methods which are demonstrably useful and have found an established application, or which do not lend themselves to collaborative testing, are given an Accepted (A) status. Details of how the status of Methods has been established may be obtained by reading the relevant Proceedings

PROCEDURES & PAYMENT

1. MT 799 sent by the buyer – it's nothing else but the readiness to send MT 760 and it costs a little. So no risk at this point from the buyer side.

2. RWA – readiness to accept MT760 is the best banking proof that the seller is ready to accept the instrument by his bank. Also it means that his bank is ready to send POP and PB2%. And that information also is sent by the seller bank officer along with RWA.

So IN THIS POINT the buyer receives the banking legal and official confirmation on POP and PB.

POP and PB is already lodged in the bank and ready to be sent.

IF THE BUYER DOES NOT RECEIVE RWA HE DOES NOT SEND MT760! So no risk!

3. MT760 sent by the buyer.
4. POP and PB is sent by the seller.
5. MT 103 with SBLC is sent after SGS and BL. (full set of documents loading)

SUGAR

Al Ahram Group International Factories & Companies

Alahramgroupworld.com

White Cane Sugar Icumsa 45

ICUMSA 45 (White Refined Sugar): A highly refined white sugar product. This is the table sugar that most people use every day and is typically sold as granulated sugar.

ICUMSA 150 (Plantation White Sugar): A white sugar commonly produced for local consumption in sugar cane growing countries. It is produced at the Sugar Mill without the need for additional refining of the raw sugar.

ICUMSA 600-1200 (Raw VHP Sugar): A raw sugar common in Brazil, the world's largest exporter of sugar, which has a small amount of molasses retained in the crystal. It is often exported and refined at the destination country.

Specialty: Santana Group offers a wide range of Specialty Products for direct food use including organic, fairtrade, powdered, light / dark brown, retail and sachet products. If you are interested in a specialty product, please contact your local market representative for more details and specific availability within your region.

Packaging/Minimum Order Size: Santana Group has the flexibility and scale to fulfill orders from a single container to entire vessels depending on our customers' needs on both a bulk and bagged basis. Our customers packaging requirements range from bulk/break bulk vessels, bulk truck/containers, FIBCs/big bags (1/1.5 metric ton), 50KG bags, 25KG/50 pound bags, retail and sachets.

Food Safety: Santana Group actively involved with all its trade partners, customers and vendors alike, in order to improve food quality, safety and ingredient transparency throughout our various product supply chains. When ordering, please make sure to make your sales representative aware of any specific food safety requirements pertaining to your local market.

Al Ahram Group International Factories & Companies

FOB PROCEDURES

Non-Negotiable

1 Issuance of ICPO & BCL:

The buyer shall issue an ICPO and BCL or just an ICPO signed and stamped by the buyer's bank. Upon verification, the seller will issue a completed, signed, and sealed FCO (Full Corporate Offer), followed by a draft contract for both parties to review and countersign.

2

Review & Counter-signing:

The buyer shall review the draft contract and countersign it, or suggest any necessary amendments, within three (3) business days.

3

Issuance of Proforma Invoice and Payment Terms:

Within two (2) business days, the seller will issue a Proforma Invoice to the buyer, enabling the buyer to open the necessary financial instrument. The buyer's bank shall issue a 100% financial instrument, which guarantees the product price and must be from a top-tier international bank acceptable to the seller.

4

Verification of Financial Instrument & POP Submission:

Within ten (10) working days of receiving and verifying the buyer's financial instrument, the seller will submit the full Proof of Product (POP) and a 2% performance bond.

5

Inspection Fees:

Fees for inspection by SGS or an equivalent inspection company, chosen by the buyer, will be paid by the seller at the loading port and by the buyer at the destination port.

6

Release of Financial Instrument:

The seller's bank will release the financial instrument at sight after receiving the SGS (or equivalent) inspection report.

Commission Payment:

The NCNDA/IMFPA (Non-Circumvention, Non-Disclosure, and International Master Fee Protection Agreement) will be endorsed with both the buyer's and seller's banks. Within 72 hours of the release of the financial instrument, all parties shall receive their respective commissions.
